CONFERENCE & EXPO

REVOLUTIONIZING FIRE, LIFE AND ELECTRICAL SAFETY

June 4-7, 2017

Boston Convention and Exposition Center

The NFPA Conference & Expo® is THE premier event for fire, electrical, and building safety. Bringing together thousands of professionals from myriad industries, this can't-miss showcase combines an unrivaled educational conference with a comprehensive expo of the latest products and services. There is no better opportunity to learn, discover, network, and stay current with advances in your field.

Join us and find:

- 5000+ global attendees
- 350+ cutting edge exhibits
- 125+ expert education sessions

Making a Difference.

Every baby in a crib.
Every firefighter on a call.
Every worker in an office.

People everywhere rely, life and limb, on the jobs that you do. At NFPA, we're committed to helping you do those jobs better. With a network of intelligence around the world, we listen closely to you about the challenges you face in work related to fire and life safety. We then proactively investigate, weigh, and help solve those problems and challenges that matter most.

At NFPA, our mission is to help save lives and reduce loss with information, knowledge, and passion.

As the following statistics show, our collective work creating our codes, and the work you do implementing them, helps make a true and meaningful difference in the world. Please join us as we all work together to continue creating the information and knowledge we need to do our jobs even better to help keep the world even safer.

2 million
Fewer U.S. fires today than in 1977.

4,000
Fewer U.S. fire deaths today than in 1977.

Yet, we can never rest.

One fire or one death is one too many.

Share your expertise, discuss emerging issues in your industry, and identify the latest trends and needs in your field. **Together, we can make a difference.**

Join the conversation at nfpa.org/Xchange

Information and Knowledge

is only as useful as it is used.

Here's how we make using it easier.

Comprehensive Training and Events, from classrooms, conferences and certifications, to webinars and state-approved continuing education. In whatever format works best for you, our training and events are unparalleled in the industry.

NFPA Xchange™. Direct access to NFPA technical staff and peers in an online community. Xchange is a free and easy way to ask questions and engage in the latest codes and standards information.

Technical leads. Dedicated technical resources in specific areas to answer your questions.

Fire safety education materials that are data-driven, accurate, and technically sound using effective instructional design strategies to reach people of all ages.

Ongoing expansion of our Certifications program, which provides preparation and registration to take industry recognized certification exams.

NFPA

NFPA® MEMBERSHIP: THE MOST VALUABLE TOOL IN YOUR TOOLBOX.

Everyone does their job better when they have the right resources. For 60,000 professionals around the world, NFPA membership is the ultimate resource for helping you get the job done in the safest, most responsible way.

Add NFPA membership to your toolbox at nfpa.org/join

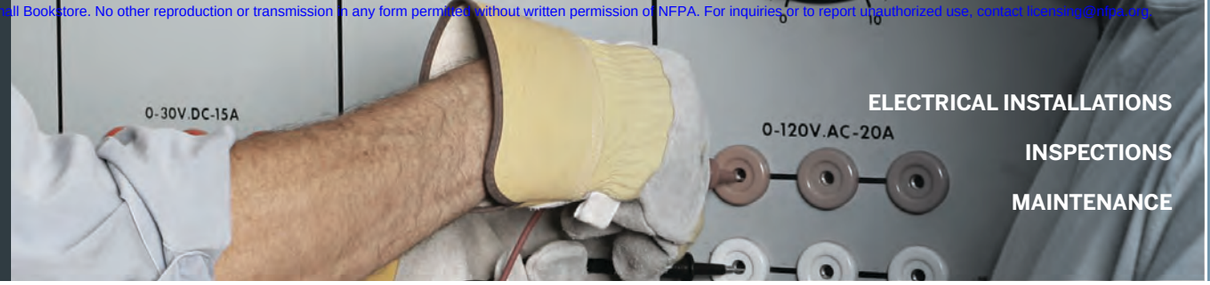
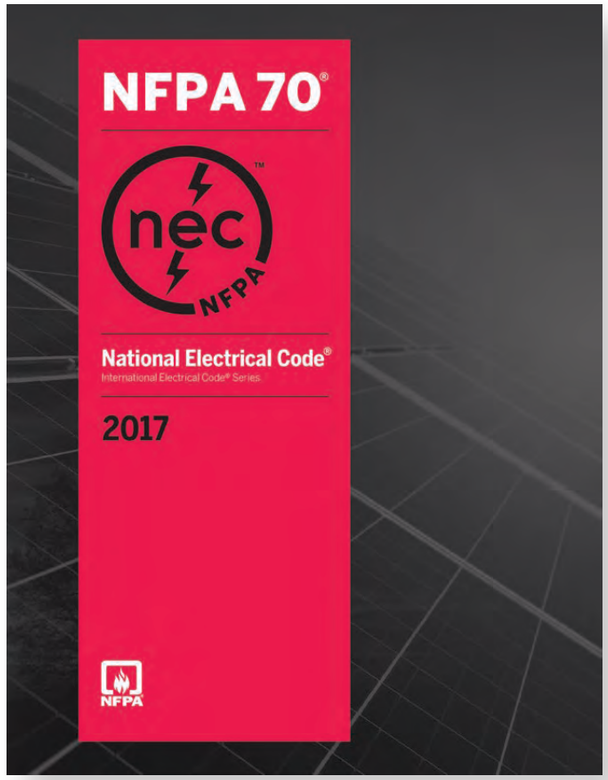
NFPA 70®

Our most current edition for safe electrical installations is here, with up-to-date information on wiring, grounding, and topics like renewable energy and energy storage. With *NFPA 70: National Electrical Code®*, you're protecting those around you and helping to build a safer world.



ELECTRICAL



NEW!

2017 NFPA 70: NATIONAL ELECTRICAL CODE

Recently revised to address continuing growth in renewable power technologies and updates about hazards, *NFPA 70®: National Electrical Code®* embodies the future of electrical safety. Don't work without the new edition of the world's most widely adopted code! Get the latest comprehensive regulations for wiring, overcurrent protection, grounding, and installation. Hundreds of updates and five all-new Articles pave the way to safer, more efficient electrical installations.

- Five first-time Articles include Energy Storage Systems (Article 706) and Direct Current Microgrids (Article 712).
- New detailed labeling for arc flash hazard warning on equipment protects workers.
- Revised provisions for AFCI and GFCI protection and other changes help improve electrical and fire safety.
- **Revisions in the 2017 *NEC*® stand out with shading!** Gray shading within sections indicates technical changes, and "N" icons flag new Articles, text, tables, and figures. Bullets show where paragraphs were deleted.

2017 NFPA 70: NATIONAL ELECTRICAL CODE® HANDBOOK

This practical and powerful resource details how to implement *NEC*® requirements and gives you the reasoning behind major changes that could affect your designs and installations. Open the *NEC Handbook* anytime you need to resolve technical issues or explain the Code's intent to clients and staff. Rewritten and substantially updated, only the Handbook has the full 2017 *NEC* text, expanded commentary, examples, and 800 visuals.

- Integrated commentary is positioned in-line with the complete 2017 *NEC* text, so you can quickly identify solutions.
- A new cross-reference feature helps you find related information in other Articles.
- 800 photos, tables, and illustrations include schematics, floor plans, and cross-sectional graphics.
- New Technical Changes section serves as quick reference to where and why Code changes occur.
- **Code revisions are now easier to spot!** Gray shading within sections indicates technical changes, and "N" icons flag new Articles, text, tables, and figures. Bullets show where paragraphs were deleted.

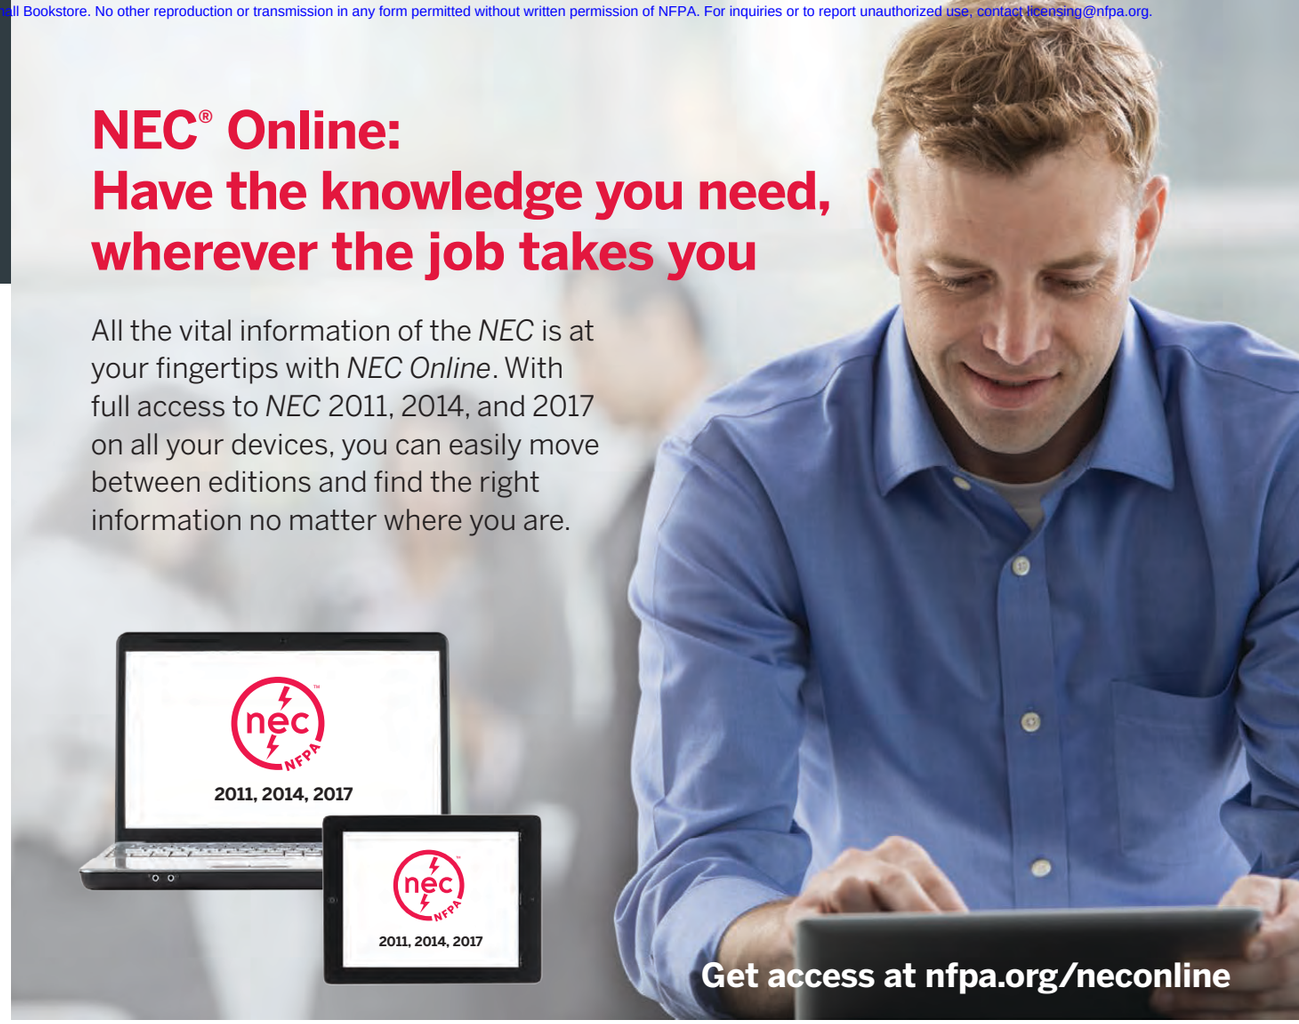
NEC® Online: Have the knowledge you need, wherever the job takes you

All the vital information of the *NEC* is at your fingertips with *NEC Online*. With full access to *NEC* 2011, 2014, and 2017 on all your devices, you can easily move between editions and find the right information no matter where you are.



Know the code? Prove it.

Test your *NEC* knowledge with NFPA's quiz app, *NEC Challenge.* Compete against your peers, earn points, and prove your expertise.

Download on the App Store | GET IT ON Google Play

You have the code. Now get the training.

Decode the intricacies of the *NEC* with ***NEC® Navigator* Online Training.** Learn how to find your way around the components, structure, and organization of the *National Electrical Code*®, directly from the source.

2017 *NEC Online* Training Series is the ultimate source of knowledge for all things *NEC.* With this six-course series, you can work at your own pace to master the applications of the code in any occupation and even earn CEUs to advance your career.

Get started at catalog.nfpa.org/training

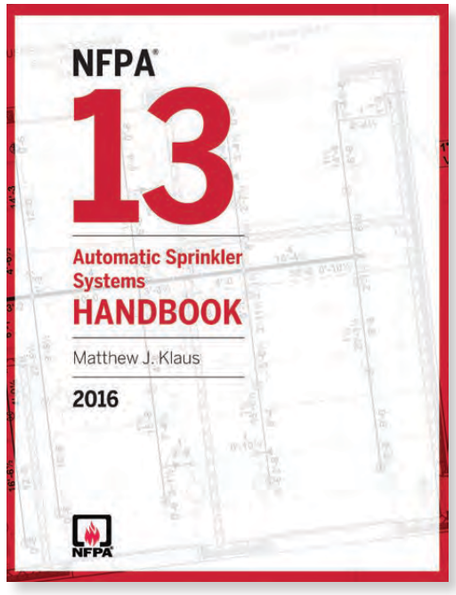
NFPA 13 RESOURCES

Sprinkler Installation and Safety

Correctly installed sprinklers can be the difference between cosmetic damage and tragedy. With *NFPA 13*, you have all the information you need to stay up to date with the latest construction materials, storage types, and other changes that are driving the increasing complexity of modern sprinkler systems.

FIRE PROTECTION SYSTEMS



2016 NFPA 13: Automatic Sprinkler Systems Handbook

Resolve design or installation questions with this indispensable full-color-illustrated resource by your side. The Handbook combines the entire 2016 *NFPA 13* text with expert insights and full-color visuals including photos, checklists, and worksheets. "Designer's Corner" features take a deep dive into design topics.

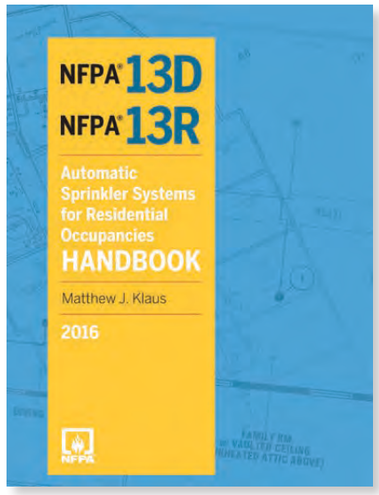
NFPA® RESOURCES 13D|13R

Residential Sprinkler Systems®

It's a fact: homes are safer with the help of sprinklers. A modern sprinkler system, installed up to code and well-maintained, can reduce the risk of residential fire death by 80%. *NFPA 13D* and *NFPA 13R* contain the information you need to reduce the number of deaths in the home.

FIRE PROTECTION SYSTEMS



2016 NFPA 13D and NFPA 13R: Automatic Sprinkler Systems for Residential Occupancies Handbook

The best way to help provide compliant, cost-effective home sprinkler systems is with the full texts of *NFPA 13D* and *NFPA 13R*, commentary that clarifies the Standards' intent, and full-color visuals. House plans in the Handbook show correct installation—vital for contractors! A Plans Review checklist helps you ensure nothing is overlooked.

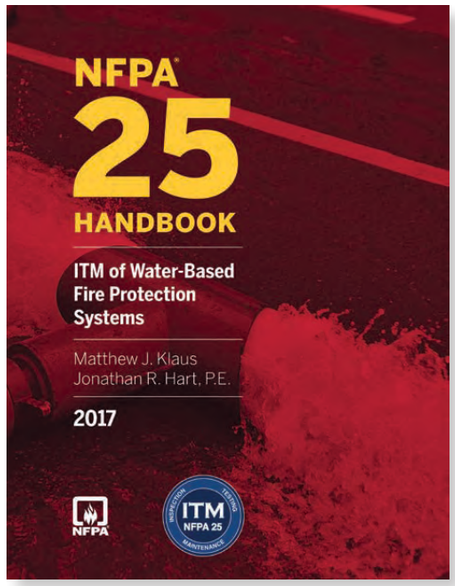
NFPA® 25 RESOURCES

Sprinkler Maintenance and Inspection

Without proper maintenance, sprinklers can't do what they are designed to do. Your ability to inspect and maintain modern sprinkler systems can determine whether a sprinkler system saves lives, or doesn't. *NFPA 25* compliance will help you ensure that the system you inspect is as safe and reliable as possible.

FIRE PROTECTION SYSTEMS



NEW!

2017 NFPA 25: ITM of Water-Based Fire Protection Systems Handbook

Make sure ITM is handled correctly using the step-by-step testing procedures throughout the *NFPA 25 Handbook*. Complete 2017 *NFPA 25* text, expert commentary, 100+ full-color visuals, an ITM vs. Design Evaluation feature, and key supplements round out this tool for sprinkler care and *NFPA 25* compliance. It's an industry "must" for facility managers, verifiers, and owners.

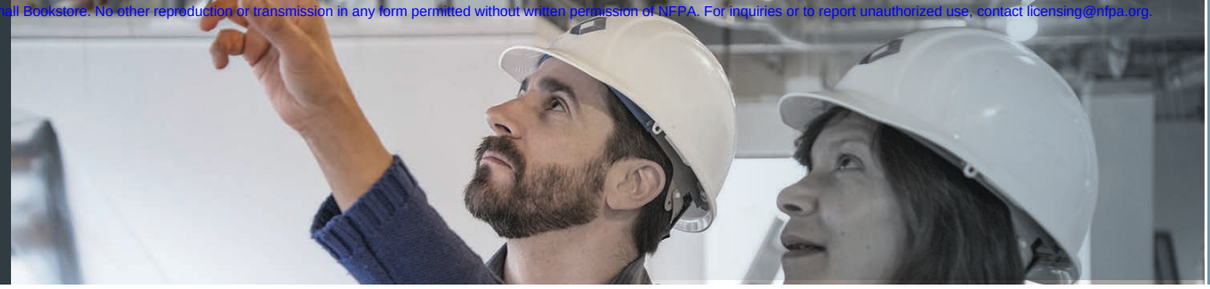
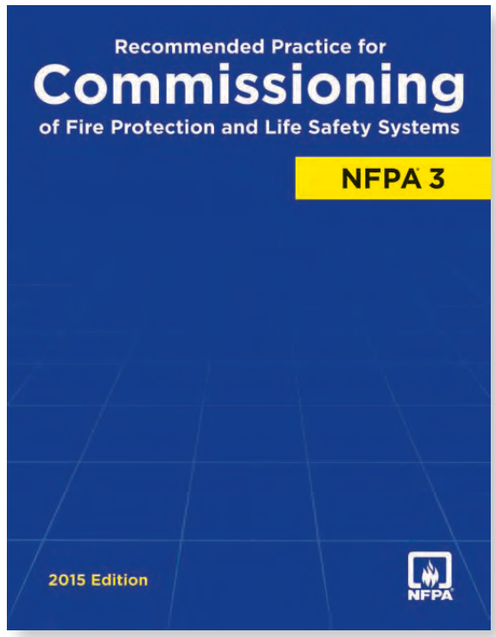
NFPA® 3&4 RESOURCES

Commissioning and Integrated Testing

Integrated systems only work properly when they are integrated properly. *NFPA 3* and *NFPA 4* provide you with the knowledge to anticipate and help avoid the oversights that could cause system failure in an emergency. These are vital tools for anticipating dangers and helping to lower risk.



FIRE PROTECTION SYSTEMS



2015 NFPA 3: Recommended Practice for Commissioning of Fire Protection and Life Safety Systems

Outlining a comprehensive process for the commissioning of interconnected safety systems—and adaptable for all types of systems—*NFPA 3* was originally developed in response to a request from the National Institute of Building Sciences® (NIBS).

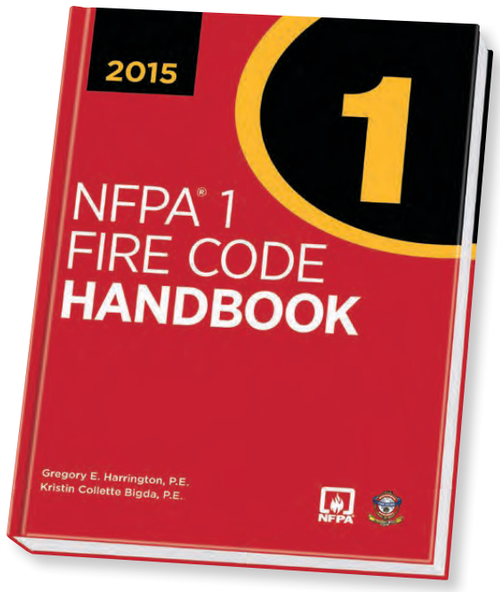
NFPA® 1 RESOURCES

Fire Code

Why is *NFPA 1: Fire Code* the foundation for fire protection for cities and towns across the country? Because it is the most comprehensive, reliable source of knowledge when it comes to fire code regulation and management. Meet the evolving challenge of fire prevention with this unmatched resource.

BUILDING AND LIFE SAFETY



2015 NFPA 1: Fire Code Handbook

Gain the technical know-how it takes to help make the right decisions about public fire safety. The *NFPA 1: Fire Code Handbook* combines the full *NFPA 1: Fire Code* text with extracts from dozens of NFPA codes. Expert commentary and 305 visuals help you answer tough questions and conduct inspections in the field.

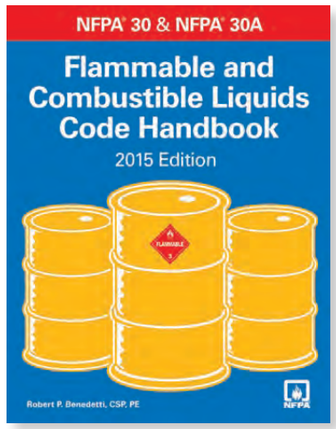
NFPA® 30 RESOURCES

Flammable and Combustible Liquids

Potential combustion and explosion behavior means potential danger, especially when it comes to flammable and combustible liquids. With *NFPA 30* and *NFPA 30A*, you can craft an even more robust master safety plan and help protect both facilities and the public from these hazardous materials.

INDUSTRIAL HAZARDS



2015 Flammable and Combustible Liquids Code Handbook

Loaded with invaluable guidance, the Handbook helps you protect people, equipment, and installations from the hazards associated with flammable and combustible liquids. It's the field's only resource with complete text of the 2015 editions of *NFPA 30* and *NFPA 30A*, full-color art, plus commentary that brings you up to date on new technologies and provides you with the history and rationale behind requirements.

NFPA® 921 RESOURCES

Fire and Explosion Investigations

Investigations don't just tell you what happened. They tell you how to prevent the next disaster. *NFPA 921* helps you make the right conclusions and deliver trustworthy testimony on everything from residential fires to catastrophic industrial accidents.

EMERGENCY RESPONSE

NEW!

2017 NFPA 921: Fire & Explosion Investigations

Revised to reflect current practices, technologies, research, and concepts, *NFPA 921* is the premier source for helping you render scientific-based opinions on origin and cause investigations, along with incident responsibility and the information needed to aid in the prevention of future fires and explosions. Chapter 1 was revised to support Fire Marshal and Fire service organizations in the completion of reports from the National Fire Incident Report System (NFIRS). Also, the chapter on Origin added the concept of an origin matrix, addressing the impact of ventilation on origin determination.

Choose the learning path that works for you.

NFPA® provides the highest level of safety information. Our global network of intelligence keeps us constantly up to date on important changes in materials, technologies, and construction, and as world populations grow. As the developers of new and updated fire and life safety codes, our experts are uniquely qualified to understand your challenges and provide the training and services you specifically need to do your job right – from analysis and engineering, to inspection, enforcement and beyond.

Types of training

- 1, 2, 3, & 4-Day Classroom Training in 20+ U.S. Cities
- Self-Paced Online Programs
- Custom On-site Training at your office/location
- Nationally Recognized Certifications
- Hands-on Classroom and Lab Training
- Free Webinars on Specific Topics
- Workshops Led by Expert Instructors

ELECTRICAL TRAINING

3-DAY CLASSROOM TRAINING

NEW! | 2017 NFPA 70®
National Electrical Code® Essentials

This dynamic training program is up-to-date with the 2017 *NEC*, to help you ensure safe and compliant electrical installation and design. Improve your ability to locate, interpret, and apply requirements in the ever-evolving *National Electrical Code*. Interact with NFPA's renowned electrical instructors in a collaborative learning environment, with topic-driven lessons, discussion, activities, and real-world exercises based on important *NEC* concepts. You'll leave with vital takeaways that will help you comply, increase confidence in your ability to recognize potential problems, and avoid costly rework or safety violations.

Earn your Certificate of Educational Achievement after the class through an online review and exam.

Upon completion you should be able to:

- Determine if an electrical installation complies with all access and space requirements
- Implement general requirements for service, feeder, and branch circuit conductors and overcurrent devices for a premises wiring system
- Recognize all critical component sizes and locations in an effective grounding scheme

2017 NEC® Essentials (NFPA 70) Classroom Training
(Without Online Exam or Certificate)

ONLINE TRAINING

NEW! | NEC Navigator™

This online training gives you a vital introduction to using the *NEC* to locate requirements correctly and efficiently. Solidify your skills through scenario-based exercises that allow real-world practice of each step.

ONLINE TRAINING COURSE BHC-OL082 **$120.00** | **$108.00 Members**
Successfully complete the course to qualify for .15 CEUs

ONLINE TRAINING SERIES

NEW! | 2017 National Electrical Code®

Maximize time by taking *NEC* training online, without compromising job demands. This updated, six-course online training series based on the 2017 edition of the *NEC* addresses navigation and application for all types of occupancies. Work at your own pace to understand how Code compliance and proper use and installation of electrical equipment leads to approval by AHJs and other enforcement professionals.

Each one-hour course ends with an exam to test your knowledge.

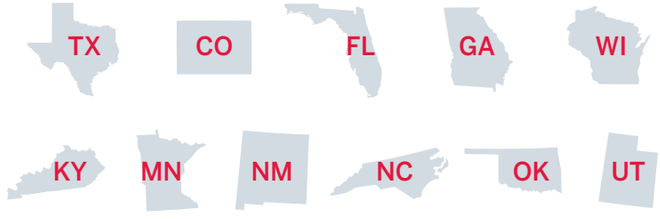
SAVE 10% when you register for the series!

ONLINE TRAINING SERIES BHC-OLS018 **$324.00** | **$291.60 Members**
Pass the online exam to qualify for .1 CEU per course or .6 CEUs for the series. Individual courses also available.

This online training may be eligible for use towards the renewal of your state electrical license. More states will be added soon.

Check for updates!

Please go to nfpa.org/slp to find out if your state accepts NFPA's online courses for CEU credit.



Modules:

- Introduction to the 2017 National Electrical Code
- General Installation Requirements
- Conductor Sizing
- Overcurrent Protection
- System Grounding and Bonding
- Equipment Grounding and Bonding

UPON COMPLETION OF THE ONLINE TRAINING SERIES, YOU SHOULD BE ABLE TO:

- Identify what the *NEC* is and is not intended to do, and what it is and is not intended to cover
- Identify requirements and explanatory information found in the *NEC*
- Describe *NEC* general requirements for the execution of work

Special consideration for attendees with disabilities
Please make us aware of any special needs you may have by calling **1-508-895-8367.**

ELECTRICAL TRAINING

2-DAY CLASSROOM TRAINING

2015 NFPA 70E
Electrical Safety in the Workplace

Originally developed at OSHA's request, *NFPA 70E* is the key to help save lives, reduce liability, and avoid loss due to electrical incidents. Learn how to use the 2015 *NFPA 70E* to help assess electrical risks and reduce employee exposure to hazards. Dynamic classroom training helps prepare you to set up and follow an electrical safety program, as well as to help document safety procedures for compliance. Earn your Certificate of Educational Achievement after the class through an online review and exam.

Upon completion you should be able to:

- Understand the interaction between *NFPA 70E* and OSHA requirements
- Define electrical safety hazards and how to help protect against shock and arc flash
- Identify safety policies and procedures employers are legally required to provide for their workers

Classroom Training with Online Exam and Certificate*

BHC-7E3 **$1,345.00 | $1,210.50 Members**

LIFE SAFETY TRAINING

3-DAY CLASSROOM TRAINING

2012 NFPA 101
Life Safety Code Essentials for Health Care Occupancies

NFPA classroom training helps you ensure your organization stays in compliance with provisions in the 2012 *NFPA 101* as outlined by the U.S. Centers for Medicare & Medicaid Services (CMS) adoption of this edition. Expert-led instruction covers the 2012 Code as it relates to the health care environment—along with key differences from the 2000 edition. Earn your Certificate of Educational Achievement after the class through an online review and exam.

Upon completion you should be able to:

- Classify occupancies and building issues found in health care facilities
- Apply health care-specific provisions for doors, including locking arrangements
- Determine the appropriate occupant load factors based on various uses of a health care facility

Modules:

- General Requirements
- Egress Basics
- Egress: Capacity, Number, and Visibility
- Means of Egress and Special Health Care Egress Considerations
- Features of Fire Protection
- Special Provisions and Operating Procedures

2-DAY CLASSROOM TRAINING

2012 NFPA 99
Health Care Facilities Code

In the collaborative classroom program, Code experts guide you through *NFPA 99's* revised content and reorganization, taking an in-depth look at how to conduct a risk-based analysis. Hands-on exercises and activities give you a working knowledge of the Code.

Upon completion you should be able to:

- Discuss how the 2012 edition of *NFPA 99* has been rewritten and reorganized to apply a risk-based approach to requirements
- Correctly apply new requirements that consider operating rooms wet locations unless a risk assessment of the area determines otherwise
- Review the updated requirements for gas equipment

NFPA 101 and NFPA 80
Fire Door Inspection for Health Care Facilities

Be prepared to conduct fire door inspections in health care facilities. CMS adoption of the 2012 edition of *NFPA 101®: Life Safety Code* requires that health care facility operators conduct a yearly inspection of fire door assemblies in accordance with *NFPA 80: Standard for Fire Doors and Other Opening Protectives.* Help ensure your facility is prepared for CMS audits by knowing how and when you need to comply with *NFPA 80* rules. This training is developed by NFPA in conjunction with the Door Safety & Security Foundation (DSSF).

Upon completion you should be able to:

- Judge the adequacy of door type for each common health care occupancy wall opening in accordance with *NFPA 101*
- Apply inspection, testing, and maintenance provisions for fire door assemblies in accordance with *NFPA 80*

- Egress Sizing and Arranging
- Egress Signage and Visibility
- Features of Fire Protection
- Building Rehabilitation

3-DAY CLASSROOM TRAINING

2016 NFPA 72
National Fire Alarm and Signaling Code®

Understand the changing role of traditional fire alarm systems and how to apply *NFPA 72* for enhanced safety and compliance. Taught by industry authorities, this interactive class is fully updated based on the 2016 *NFPA 72: National Fire Alarm and Signaling Code*. In addition to new technologies and major revisions in the Code, NFPA's activity-rich training addresses first-time coverage of Class N circuits, along with the latest requirements for initiating devices, notification appliances, control units and power supplies, circuits and pathways, and emergency control functions.

Earn your Certificate of Educational Achievement after the class through an online review and exam.

Upon completion you should be able to:

- Locate, interpret, and apply *NFPA 72* requirements
- Understand and apply requirements for circuits and pathways, including new Class N circuits
- Locate and apply new requirements for interconnected fire alarm control units

ON-SITE TRAINING
NFPA®

NFPA on-site training is the premier training experience, where code experts conduct interactive instruction for 10 or more employees at your worksite. Content is tailored to your environment and facility needs, and trainers provide answers to your code concerns. Investing in code knowledge pays off! The better your employees understand requirements, the easier it is to help ensure compliance.

In addition to our most popular programs, NFPA offers more than 20 other courses. Call 1.877.336.3280 or visit us at nfpa.org/onsite

Bring NFPA code experts to your facility!

ONLINE TRAINING SERIES
2016 NFPA 13

Updated to the 2016 edition of *NFPA 13: Standard for the Installation of Sprinkler Systems,* interactive online training introduces students to the basic principles of the components, application, design, installation, and use of automatic sprinkler systems. This six-course series covers the components of wet, dry, pre-action, and deluge sprinkler systems as well as the related *NFPA 13* requirements for a system that will help achieve a facility's life safety, property protection, mission continuity, heritage preservation, and/or environmental fire safety objectives.

SAVE 10% when you register for the series!

ONLINE TRAINING SERIES BHC-OLS012 **$324.00** | **$291.60 Members**

Pass the online exam to qualify for .1 CEU per course or .6 CEUs for the series. Individual courses also available.

ONLINE TRAINING

Modules:

- Introduction to *NFPA 13* Occupancy and Commodity Hazard Classifications
- Fire Sprinkler System Types and Applications
- Water Supplies and Design Approaches for Fire Sprinkler Systems
- Working Plans, Hydraulic Calculations, and System Acceptance
- Fire Sprinkler System Components and Other Hanging and Bracing Requirements
- Fire Sprinkler Installation Requirements

ONLINE TRAINING SERIES
NEW! | 2016 NFPA 13
Storage Protection Requirements and Assessments

This three-course online training series provides an essential foundation for understanding the design, installation, and analysis of storage fire sprinkler protection based on the 2016 *NFPA 13*. Work at your own pace to understand the application, design, and assessment of automatic sprinkler systems protecting miscellaneous and warehouse storage occupancies. The series also covers sprinkler system components and building features—as well as critical details concerning storage arrangement that affect sprinkler design and analysis.

ONLINE TRAINING SERIES BHC-OLS017 **$144.00** | **$129.60 Members**

Pass the online exam to qualify for .3 CEUs for the series.

ONLINE TRAINING

Modules:

- Commodity Classification and Critical Definitions for Storage Protection Design
- Protection of Floor Shelf, and Miscellaneous Configurations
- Protection of Rack, Tire, Roll Paper, and Special Storage

3-DAY HANDS-ON TRAINING

NEW! | Hands-on 3-Day Training

2017 NFPA 25

Inspection Testing and Maintenance of Water Based Fire Protection Systems

This 3-day course combines hands-on training in a lab setting with classroom learning hosted by NFPA instructors. Students will be able to review the 2017 edition *NFPA 25*, chapter-by-chapter, with an expert NFPA instructor, and then apply what they've learned on actual equipment. Return to your job with knowledge and experience you can apply immediately. With a better understanding of *NFPA 25* along with the hands-on experience, you should help save time and money on planning, installations, reviews, and maintenance, training, and more. All attendees will have the opportunity to learn how to help keep buildings, assets, and people better protected. Specifically, building owners and property managers will gain a better understanding of what they need to maintain their fire protection systems by properly managing their vendors. Installers, contractors, engineers, and inspectors will see fire protection equipment in proper working order—giving them an inside view of why *NFPA 25* is so important and the value of their part of the process.

2017 NFPA 25: Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems Hands-on Training

NEW! | ITM
for Fire and Life Safety Online Training

Work at your own pace to increase your knowledge of applicable inspection, testing, and maintenance provisions as required by *NFPA 25, NFPA 72®,* and *NFPA 80.* Also, gain an understanding of why *NFPA 70E®* practices should be applied to some of the procedures required by *NFPA 25* and *NFPA 72*. Take the online exam after completion of all six course components to test your knowledge and earn your ITM for Fire and Life Safety badge. Ideal for facility management personnel and building owners, this training will give you the insights and knowledge needed to help manage vendors, provide answers to AHJs, and ultimately, keep occupants safe.

ONLINE TRAINING SERIES BHC-OLB001 **$270.00** | **$243.00 Members**
Pass the online exam to qualify for .6 CEUs in all. (Available February 2017)

2-DAY HANDS-ON TRAINING

NEW! | Hands-on 2-Day Training
for Facilities Managers—Essentials for Life Safety and Fire Protection Systems

Developed expressly for facility managers, this special hands-on training deepens your understanding of the fire protection and life safety systems in your facility—as well as how requirements in *NFPA 101®, NFPA 72®,* and *NFPA 25* are applied. After expert-led classroom instruction and demonstrations in a state-of the-art lab, you'll walk away with the knowledge needed to help manage vendors, provide answers to AHJs, and ultimately, keep occupants safe.

Upon completion you should be able to:

- Identify life safety requirements *(NFPA 101)*
- Identify requirements for inspection, testing, and maintenance of fire alarm systems *(NFPA 72)*
- Understand Facility Manager Roles & Responsibilities as they relate to *NFPA 25*

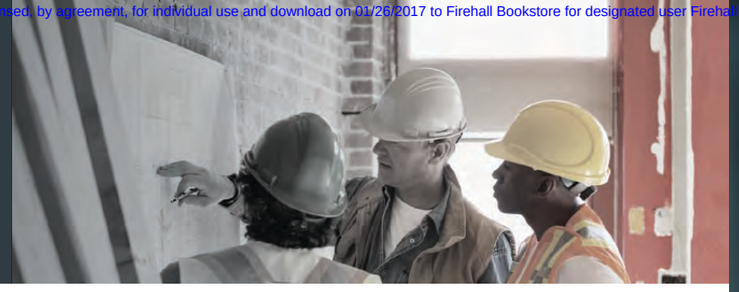
NFPA® 350 654



ONLINE TRAINING SERIES
NFPA 350

Work online at your own pace to learn about the potentially life-saving procedures in *NFPA 350: Guide for Safe Confined Space Entry and Work*. Three interactive courses use scenario-based exercises, on-screen visuals, and video to show you how to recognize, evaluate, and control confined space hazards in your workplace. Get expertise delivered to your desktop!

Each one hour course ends with an exam to test your knowledge.

ONLINE TRAINING SERIES BHC-OLS014 **$144.00 | $129.60 Members**

Pass the online exam to qualify for .3 CEUs for the series.

Modules:

- Hazard Recognition
- Hazard Evaluation
- Hazard Control

ONLINE TRAINING SERIES
2013 NFPA 654

This three-course series based on the 2013 *NFPA 654: Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids* helps you understand the fire and explosion hazards posed by combustible dusts. Training addresses related OSHA activities, where dusts can be found, and how *NFPA 654* helps to protect lives and property.

Each one-hour course ends with an exam to test your knowledge.

ONLINE TRAINING SERIES BHC-OLS007 **$162.00 | $145.80 Members**

Pass the online exam to qualify for .1 CEU per course or .3 CEUs for the series. Individual courses also available

Modules:

- Hazard Recognition
- Hazard Evaluation
- Hazard Control

ONLINE LEARNING MEMBERSHIP
NFPA

NFPA online learning membership includes every benefit of NFPA membership, **plus allows you to access over 80 online courses at your convenience,** so you can learn at a pace that's comfortable for you. Modules feature interactive exercises that allow you to test your knowledge as you go, to help ensure you've mastered the concepts. Best of all, you don't have to pay for each course—everything is covered in one low price.

CFPS® Certification

CFI-I Certification

CERTIFICATION

2-DAY CLASSROOM TRAINING

Certified Fire Protection Specialist (CFPS) Primer

Success on the CFPS examination demands a high level of proficiency with the fire, life, and building safety facts in the NFPA® 20th edition *Fire Protection Handbook® (FPH®),* which serves as the official body of knowledge for the examination. While not a test prep program, the CFPS Primer does offer practical, hands-on instruction that will help you quickly locate specific information within the *FPH.*

Upon completion you should be able to:

- Quickly reference facts and information in the *FPH*
- Understand the organization of the content found in the *Fire Protection Handbook*
- Describe the six strategies of the Systems Approach to Building Fire Safety

Certified Fire Protection Specialist Primer
BHC-CFPS2 **$945.00** | **$850.50 Members**

4-DAY CLASSROOM TRAINING

NEW! | Certified Fire Inspector I

NFPA® offers the CFI-I Certification to signify you have the experience, education, and knowledge it takes to handle the responsibilities of your job. This in-depth four-day classroom training is designed to help you prepare to take the CFI-I Certification Exam, which is offered on Day 5. The NFPA CFI-I Certification is now Pro Board® recognized.

This class will teach you the basic principles of Fire and Life Safety, meeting the requirements of *NFPA 1031* for Fire Inspector. The class covers the complete use of the *Life Safety Code®*, as well as key provisions from referenced codes and standards. Supplemental topics include storage and handling of hazardous materials; the reviewing, testing, and acceptance of water- and chemical-based fire protection systems; fire alarms; and many other topics related to being a fire inspector. This course also covers the legal aspects of being an AHJ. It is recommended that participants review the IFSTA® *Fire Inspection and Code Enforcement* text or have prior fire inspection experience.

Upon completion you should be able to:

- Identify the responsibilities of a fire inspector and the knowledge required to perform the job
- Understand the use and application of NFPA codes and standards
- Know fire and life safety principles and how they are applied

Certified Fire Inspector I Classroom Training
