PUBLIC SAFETY GROUP®

A DIVISION OF JONES & BARTLETT LEARNING

2019 CATALOG

THE PUBLIC SAFETY GROUP DIFFERENCE

The Public Safety Group, a division of Jones & Bartlett Learning, has become the world's most innovative and trusted source for educational materials and solutions for EMS and fire students, educators, and professionals by combining the collective value of our people, products, and partners. From initial training to recertification to retirement, we strive to be a lifelong learning partner to those who serve our communities tirelessly and ensure our safety and well-being.

Please review this catalog for a glimpse at some of our key products and learning solutions, and then visit www.psglearning.com to learn more.

SUPERIOR CUSTOMER SERVICE

Personal, responsive service is the hallmark of the Jones & Bartlett Learning Public Safety Group. With our Account Specialists' exceptional attention to detail, experience, quick response times, and team-focused approach, we are renowned for our gold star service. Your questions and concerns are our number one priority. For decades, we have been putting our customers first, and we will continue to deliver the exceptional, personalized service that you deserve.

Product Demos and Review Copies

Product demonstrations and complimentary* review copies are available for qualified instructors who wish to consider a resource for course adoption. For fastest service, make your request online at www.psglearning.com or let our knowledgeable Account Managers help you find the resource that best meets your course needs.

Transformative Learning and Instructional Tools

JONES & BARTLETT LEARNING
NAVIGATE 2

Navigate Insights. Navigate Insights helps track and analyze student engagement and performance across a variety of assessments and subject areas, from eBook usage to quiz results. Dashboards provide deep insight into learner behaviors, effectiveness of course content, and identify trends that affect achievement.

eBook. Read textbooks online or offline, enhance learning with interactive tools, and make and share notes. Our improved eBook is fully responsive, simpler to use, and enhanced with video and interactivities.

Study Center. Reinforce your comprehension of course materials with practice activities in this virtual study center. Here, students can prepare for graded quizzes and examinations in a low stress environment, use key term flashcards reinforce vital vocabulary, and more.

Interactive Lectures. Experience engaging, fully narrated lectures that allow students to learn at their own convenience and pace. Lectures create a mobile classroom perfectly suited for distance or hybrid courses. They are also an ideal tool to review the lecture outside of the classroom.

Simulations. Perform skills in the safety of a virtual environment. Simulations make learning interactive and fun, while offering learners the opportunity to hone the critical thinking skills necessary for success.

Test Prep. Navigate 2 TestPrep helps prepare students for certification or high-stakes examinations by offering practice and simulated certification tests, detailed rationales, and powerful data dashboards.

Learn How Navigate 2 Can Help Transform the Way You Teach and Your Students Learn

Ensure Your Students Have the Affective and Interpersonal Skills Needed to Succeed in Public Safety

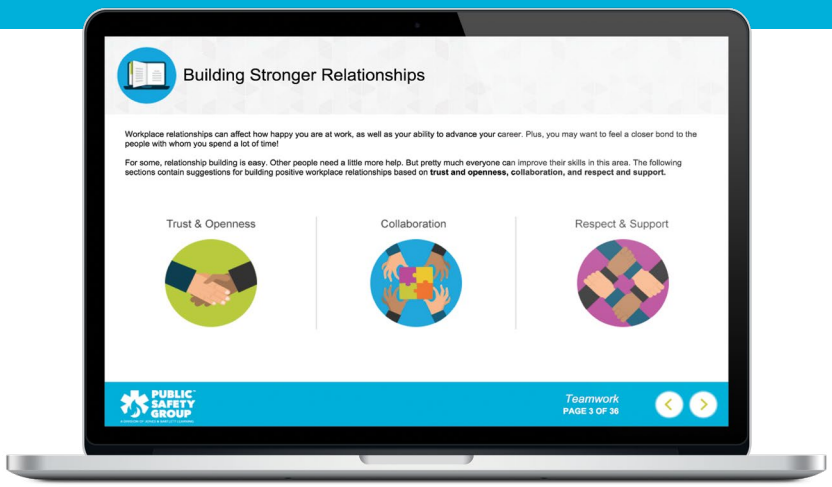
INTRODUCING THE ALL-NEW

Employment Readiness Course

Public Safety Group

ISBN: 9781284185003 • Online Course • © 2019

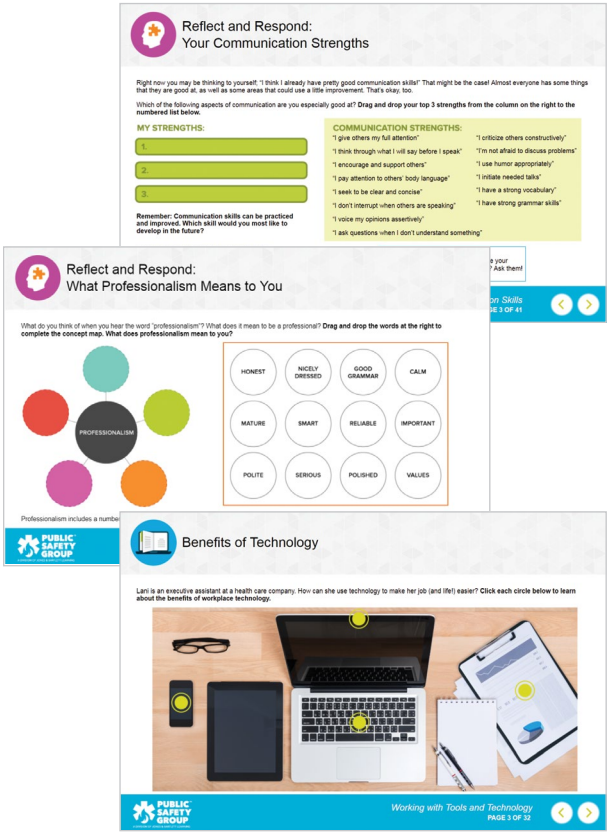
go.psglearning.com/ercourse



The ***Employment Readiness Course*** teaches students the soft skills employers demand to help increase job retention, improve employee relations, and make their EMS providers stand out from the crowd. This valuable resource is appropriate for recent graduates, employee onboarding, and recurring staff training.

Upon completion of this nine-module course, students will be able to:

- Treat others with honesty, fairness, and respect
- Display responsible behaviors at work
- Work effectively with team members from diverse backgrounds
- Actively look for ways to identify market demands and meet customer or client needs
- Demonstrate the ability to work effectively with others
- Maintain open lines of communication with others and communicate effectively
- Plan and prioritize work to manage time effectively and accomplish assigned tasks
- Demonstrate the ability to apply critical-thinking skills to solve problems by generating, evaluating, and implementing solutions
- Display the capability to adapt to new, different, or changing requirements
- Select, use, and maintain tools and technology to facilitate work activities



Explore the Modules Included in the Employment Readiness Course

1

Integrity

What do employers really want? In addition to the skills to do the specific job, they want strong personal qualities, like integrity and dependability. Employers want to know that you will show up, work hard, make good decisions, and be responsible for your actions.

2

Professionalism and Adaptability

All places of work expect some level of professionalism. Being able to stay open and receptive to change is one important element of acting like a mature professional.

3

Respect

This module includes important tips for ensuring positive interactions when working with people from backgrounds that are different than your own.

4

Communication Skills

Communication is about expressing your feelings, opinions, and ideas to another person or a group of people. In the workplace and in your personal life, people are more likely to listen to you if you can express your thoughts clearly.

5

Teamwork

The ability to work on a team is a skill in and of its own. But there are additional skills associated with teamwork, such as listening, sharing, and cooperation. This module explores the skills it takes to be a strong team member.

6

Planning and Organizing

There are certain activities you can do to improve your planning and time management skills. During this module, you'll learn about activities that will help you become better organized and more efficient with your time. Using these activities will require commitment on your part, but eventually, these activities will become habits.

7

Decision Making and Problem Solving

Everybody can benefit from having good decision-making and problem-solving skills. We make decisions and encounter problems on a daily basis.

8

Customer Focus

Specific customer needs can vary across business and industries. But there are many universal skills that anyone can learn to improve the experience provided to customers.

9

Working with Tools and Technology

Technology is a part of most jobs and nearly every workplace. You should do your best to keep an open mind when it comes to working with technology. You also need to understand important safety requirements when working with technology.

For more information, please visit **go.psglearning.com/ercourse** or contact your dedicated Public Safety Specialist today: **www.psglearning.com/contact**.

Your Source for High-Quality, Low-Cost CPR and First Aid Training Solutions

ECSI
EMERGENCY CARE & SAFETY INSTITUTE

With the **Emergency Care and Safety Institute (ECSI)**, you can have everything you want from a single, internationally recognized training organization. Discover why training with **ECSI** is the smart choice:

Training Tailored to Your Needs

With flexible course delivery options, you can offer your students the training they need in the manner in which they will excel. Simply purchase one of these four items in order to unlock a digital course completion card for the course: student manuals, student eBooks, online course access codes, pocket guides.

High-Quality Materials

When you order your training materials from **ECSI**, you do not have to sacrifice quality for affordability. Our highly developed student manuals and interactive online courses feature the latest medical content and are filled with tips and tools to help your students succeed.

Ease of Administration and Zero Fees

Joining **ECSI** is easy and involves no training center or instructor fees. As an **ECSI** Education Center, you have the freedom to manage your own courses and do not have to worry about paying recurring fees.

JONES & BARTLETT LEARNING
An Ascend Learning Company

AAOS
American Academy of Orthopaedic Surgeons

American College of Emergency Physicians®
ADVANCING EMERGENCY CARE

Emergency Care & Safety Institute (ECSI) programs are offered in association with the American Academy of Orthopaedic Surgeons and the American College of Emergency Physicians (ACEP)—two of the most renowned medical organizations in the world. These organizations provide medical direction to ECSI and stand behind the content of our training materials.

ECSI's training materials are developed and distributed by the Public Safety Group, a division of Jones & Bartlett Learning, the exclusive publisher for **ECSI**.

ECSI Courses and Materials

Student Materials

Manuals, eBooks, and Pocket Guides

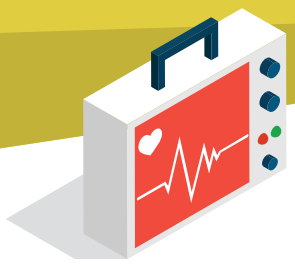
Our highly developed, full-color student manuals feature the latest medical content and are filled with tips and tools to engage your students. **ECSI's** manuals are also available in electronic (eBook) formats to provide an economical and environmentally friendly alternative to traditional printed manuals. Finally, our pocket-sized guides are available for first aid and CPR refresher training.

Online Courses

Each online course can be used as an interactive supplement to reinforce what students have learned in the classroom, or as a distance learning platform where students can complete the knowledge-based component of the course online and then complete the hands-on skills evaluations with an instructor.

Nationally Recognized Digital Course Completion Cards

ECSI provides a digital course completion card with the purchase of one of these four items: student manuals, student eBooks, online course access codes, pocket guides. The digital course completion card can be sent via email to the student who completed the course and/or the student's employer. It can also be printed out by the instructor and issued to students at the training location.



Instructor Materials

Teaching Packages

With our unique Teaching Packages, you have the option to choose your teaching strategy:

- Lectures for a traditional classroom-based course
- Scenario-based for a more interactive course
- Mix and match learning tools and methods to engage and improve retention

Learning follows your lead with flowcharts, skill sheets, checklists, games, skill demonstrations videos, course outlines, presentations in PowerPoint format, detailed lessons plans, and much more!

**All Teaching Packages are available online and can be easily downloaded for seamless offline access.*

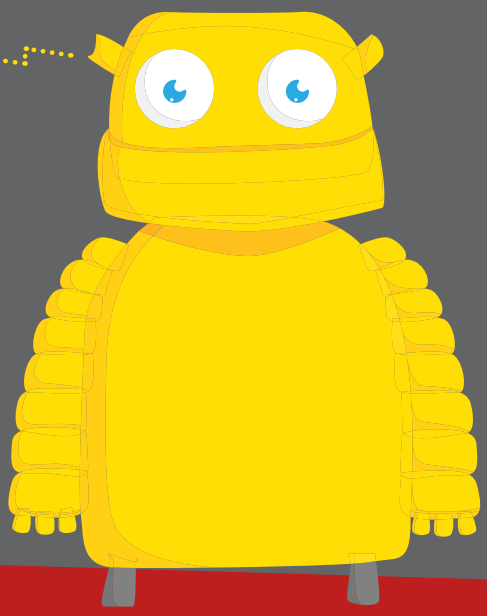
FISDAP®

A community-driven approach to educational success

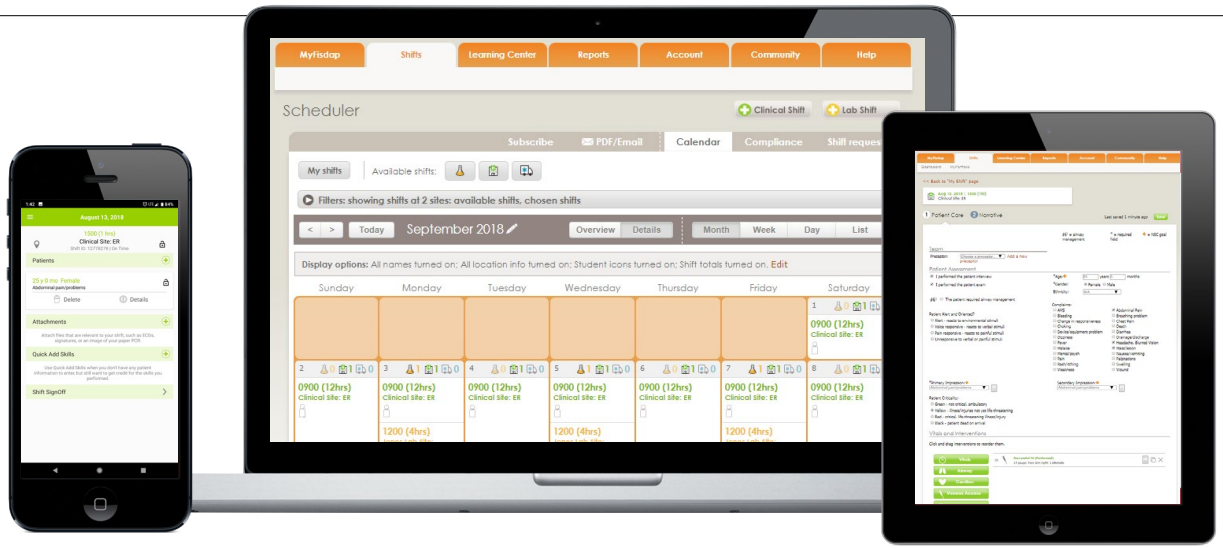
Proven and predictive learning and examinations

Commited to EMS research and education



www.fisdap.net

What We Make



Internship Management

Skills Tracker

The Skills Tracker is an online database for everything your students do during their field and clinical internships.

- Document field, clinical, and lab experiences on desktop, tablet, or smartphone.
- Monitor and evaluate students' experiential learning online.
- Motivate students with graphs and reports that help them understand their strengths and weaknesses.
- Quickly and easily generate detailed reports for accreditation and end-of-term checkups

Scheduler

Manage your students' internship schedules and compliance online.

- Subscribe to automatically view upcoming shifts as events on your personal calendar.
- No more double-booking: partner with other schools in your area to share your field and clinical calendars.
- Track which students are compliant with site-specific requirements.

Full Integration

When you combine Fisdap Skills Tracker and Fisdap Scheduler, you'll be amazed at how easy it is to manage field and clinical experiences from start (scheduling the shift) to finish (documenting patient contacts). When a student chooses or is assigned shifts in Fisdap Scheduler, they automatically appear in the student's Skills Tracker account.

For Educators

Preceptor Training

The CoAEMSP wants to know: Do you train the people who are training your students? Train your preceptors to be stronger mentors to your students. Preceptor Training is an introduction to adult education theory that trains good clinicians how to also be excellent mentors.

- Flexible, self-paced online learning allows preceptors to pick up where they left off during their last visit.
- Educational videos, quizzes, and a final assessment highlight and reinforce key concepts.
- Printable certificates document the completion of our CAPCE-approved course.

What We Make

Testing

Comprehensive Exams

Use our comprehensive exit exams to evaluate whether your students are ready to take their certification exams and become practicing EMS professionals. Over 97% of students who pass our secure exams pass the NREMT on the first attempt.

Available for:
EMT | AEMT | Paramedic

Unit Exams

With Fisdap Unit exams, you can give your students a challenging, computer-based exam after each unit of the curriculum. Expose your students to critical-thinking questions early and often during their classroom training.

Available for: EMT | Paramedic

Our exams guide your students from admission to graduation, ensuring student preparedness throughout their training.

Study Tools

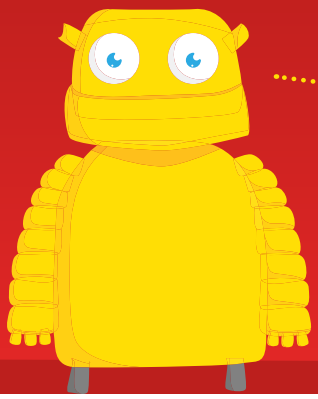
Study Tools give students the freedom of independent study. Unlike Fisdap Testing, the comprehensive practice exams in Study Tools do not have to be scheduled or proctored by you. Students take the exam on their own time.

Available for: EMT | Paramedic

Entrance Exam

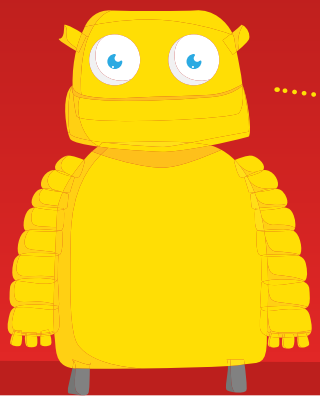
The Entrance Exam is different from other entrance exams because it was created **by** and **for** EMS educators, and includes a personality assessment. Use the Entrace Exam to help select the prospective students with the best likelihood of success in your program, or as a diagnostic tool at the beginning of your class to assess incoming students' strengths and weaknesses.

Available for: EMT | Paramedic



Curious about how Fisdap can help you gain or maintain accreditation?

One of the many benefits of Fisdap is its ability to collect data and pull reports on the information the CoAEMSP wants to know about your program. When it comes time for you to present reports and documentation, all of the records are neatly stored and available to you with the click of a mouse. Visit www.fisdap.net/accreditation to learn how Fisdap products work together to target accreditation needs.



An EMS Community

We're helping to build a community of connected EMS students and healthcare professionals. Everything we do at Fisdap is collaborative. All of our products and services began with a phone call or an email from a customer asking us to fill a void in their educational toolkit. Together, we're leading EMS education in new and exciting directions.

THE ROADMAP TO "FLIPPING" YOUR EMT CLASSROOM

A flipped classroom is designed to help educators shift from the role of lecturer to the roles of guide and facilitator. It allows traditional instructor-centered classrooms to transform into student-centered learning environments, where instructors can provide individual mentoring to each student.

The **EMT Flipped Classroom** delivers primary source content in a variety of engaging formats, including an *Emergency Care and Transportation of the Sick and Injured, Eleventh Edition* eBook and Interactive and Virtual Mentor Lectures. The course features student-directed courseware, including problem-solving activities, peer-to-peer activities, and student coaching tips, with competency checks throughout.

The **EMT Flipped Classroom**:

- Allows for hands-on learning during class time to ensure students retain critical information
- Helps students strengthen their decision-making skills and gain experience in a safe environment
- Enables educators to reduce lecture time and create meaningful student coaching opportunities

Learn how the **EMT Flipped Classroom** can help transform the way you teach and your EMT students learn.

Contact your Public Safety Specialist or email us at info@psglearning.com to request more information or schedule a personalized demonstration.

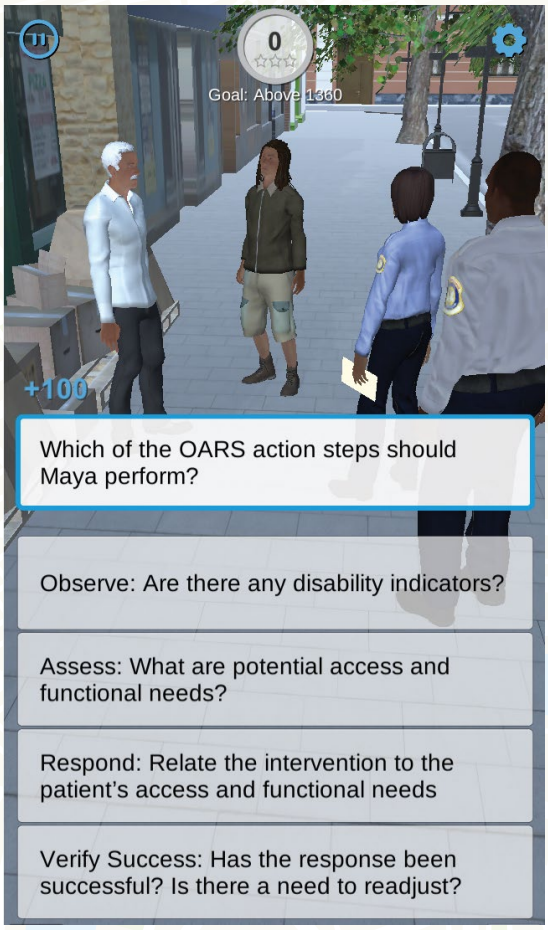
RESCUE-D

A NEW ONLINE COURSE TO PREPARE FIRST RESPONDERS CARE FOR PEOPLE WITH DISABILITIES DURING AND AFTER AN EMERGENCY



When disaster strikes, risk is not distributed equally. Those who are vulnerable before an emergency may become even more vulnerable during or after an emergency. The University of Massachusetts Medical School and the Public Safety Group have teamed up to create the Rescue-D course to ensure all first responders are prepared to respond to people with disabilities.

The 4-hour, online simulation-based Rescue-D course features 20 unique training and rescue mission modules. Knowledge checks with feedback are offered throughout the course, and a final quiz will gauge comprehension before you can complete Rescue-D.

Becoming an NAEMT Instructor is Easier Than Ever!

Learn More at: **go.psglearning.com/NIC**

The ***NAEMT Instructor Course*** provides instructor candidates with the basic training and information needed to become an instructor for any of NAEMT's continuing education courses.

STEP 1:

Successfully complete a provider course with a minimum passing score of 76% on the written test.

STEP 2:

Successfully complete the NAEMT Instructor Course online. Achieve a minimum passing score (80%) for the course on the online post-test.

STEP 3:

Submit an NAEMT Instructor Application.

STEP 4:

Teach a provider course while being monitored by an Affiliate Faculty member.

STEP 5:

Maintain your instructor status by teaching at least one course per year.

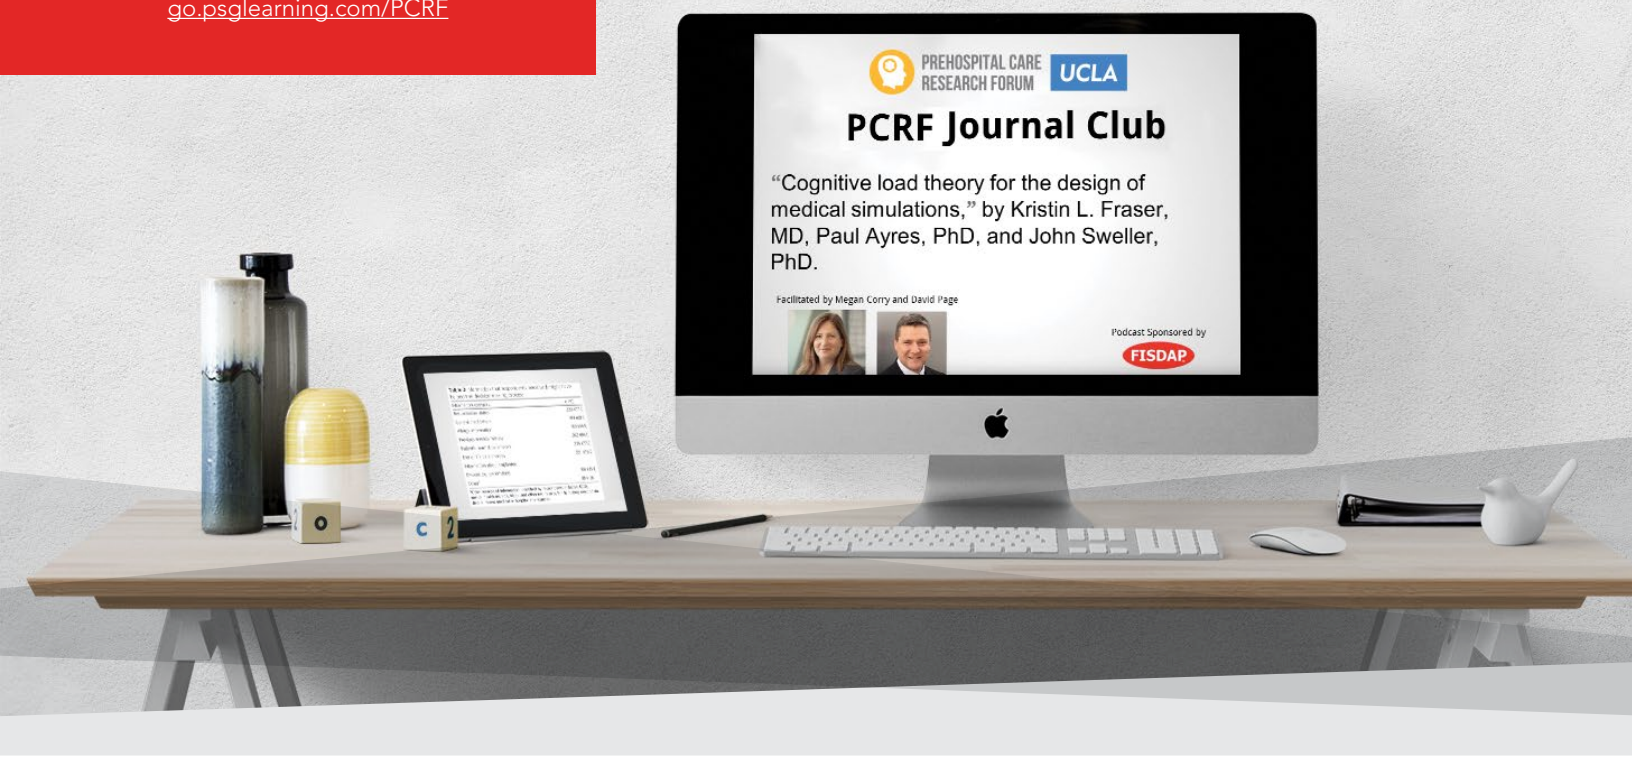
Hungry for EMS Research?

CATCH UP ON THE LATEST PCRF JOURNAL CLUB!

Sign Up for Next Month's PCRF Journal Club Now at:

go.psglearning.com/PCRF



Sponsored by the Prehospital Care Research Forum (PCRF) and facilitated by Fisdap, the PCRF Journal Club is a live podcast series featuring round-table discussions of new EMS research. Facilitated by Dave Page, Megan Corry, and other distinguished members of the Prehospital Care Research Forum, the Journal Club is offered on the second Monday of each month and often features medical journal authors as special guests to discuss their research.

From educators to students to practitioners, EMS research enthisiasts of all kinds are welcome to join this free monthly discussion forum to stay up-to-date on some of the most cutting edge principles and practices in prehospital care.

Want to Watch Archived PCRF Journal Club Recordings?

Visit www.youtube.com/Fisdap and check out the PCRF Journal Club playlist.

SAY HELLO TO RECERT™

The new online continuing education solution that combines great courses and helpful recertification tracking tools in one affordable package

Discover more at **www.recert.com**

Recert is offered in partnership with:

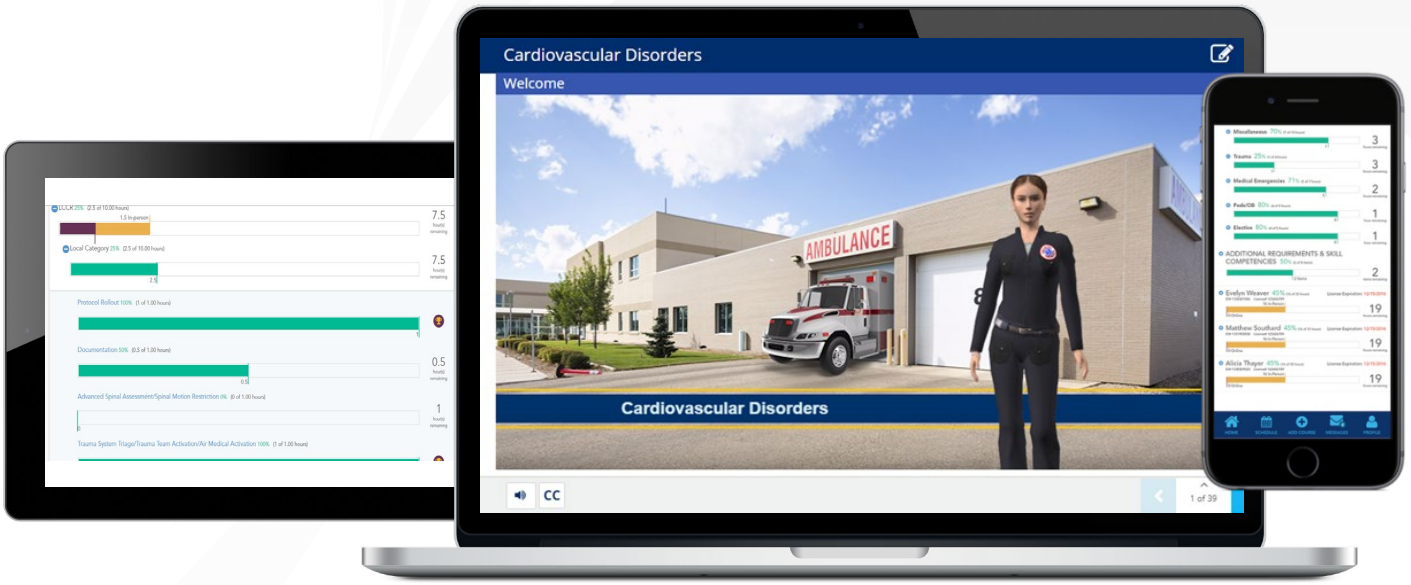
PUBLIC SAFETY GROUP™
A DIVISION OF JONES & BARTLETT LEARNING

NAEMT®
Serving our nation's EMS practitioners

5 Wall Street | Burlington, MA | 01803 | 978-443-5000 | www.psglearning.com

RECERT IS DIFFERENT.

Recert, a new recertification solution from the Jones & Bartlett Learning Public Safety Group and National Association of Emergency Medical Technicians (NAEMT), allows you to move beyond average, uninspired online content with more than 200 up-to-date, evidence-based EMS and Fire courses. Recert covers every NCCP topic requirement with 100% CAPCE-approved content based on your favorite continuing education courses. Plus, Recert offers free tools to help employers and individuals track recertification progress and compliance.



PERFECT FOR EMPLOYERS.

Recert takes the hassle out of employee certifications and compliance with powerful reporting, scheduling, and tracking tools. The profile tool within Recert can be customized to track progress against national, state, or specific institutional requirements. Employers can easily assign more than 200 courses to groups or specific individuals, and custom course content may also be added and assigned.

RECERT™ www.recert.com

WHAT MAKES RECERT GREAT?

- Affordable, unlimited access to 200+ courses for only $39.95–59.95/year
- Complete coverage of every required NCCP topic
- Recert EMS courses are approved by CAPCE
- Evidence-based content aligns with current medical standards and guidelines
- Every course is interactive, from live patient videos to critical-thinking scenarios
- Custom content can be uploaded for delivery and tracking
- Employers can assign courses or allow employees to manage their own courses
- National, state, and customizable reporting, scheduling, and tracking tools available

WORLD-CLASS CONTENT. TIME-SAVING TRACKING TOOLS. GREAT PRICE.

Individual courses cost $6.95 and unlimited annual access is available for only $39.95–$59.95 per individual. Discover effective and affordable continuing education today at **www.recert.com**.

Want to see how Recert can help you easily manage continuing education at your institution? Request free access or a personalized demo now at **www.recert.com/employers**.

RECERT™ www.recert.com

EXCEPTIONAL CONTENT BUILT BY THE LEADERS IN THE FIELD.

Much of the core content on Recert is adapted from gold-standard education courses, videos, and learning materials created by these and other prestigious organizations.

For more than 30 years, **ACTION TRAINING SYSTEMS** (ATS) has created award-winning content by working with industry-leading experts to assure that content is engaging and promotes safety in real-life emergency scenarios. ATS content is thoroughly reviewed to ensure accurate coverage of National Fire Protection Association Standards and National Emergency Medical Services Education Standards. Action Training Systems DVDs are valuable tools for instructor-led classroom training, and make an ideal supplement to other Jones & Bartlett Learning Public Safety Group student and instructor resources.

COMPLIMENT YOUR TRAINING WITH AWARD-WINNING VIDEO CONTENT

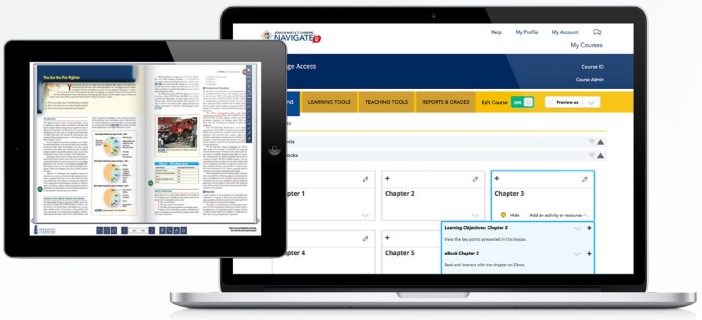
Deliver Unbeatable Value with a FREE eBook and Online Study Tools



eBook

Learn. Read your digital textbook online or offline, enhance your learning with interactive tools, and make personal notes. The eBook provides a personal, interactive, and collaborative learning experience on computers, tablets, and mobile devices.

Lectures

Learn. Experience engaging, fully narrated lectures that allow you to learn at your own convenience and pace.

Simulations

Practice. Perform skills in the safety of a virtual environment. Simulations offer learners the opportunity to hone the critical thinking skills necessary for success.

Study Center

Practice. Reinforce your comprehension of course materials with practice activities in this virtual study center. It is open during nights and weekends too!

Assessments

Assess. Evaluate your comprehension of course materials in this homework and testing center with quizzes and examinations.

Analytics

Analyze. Use actionable data to determine where to focus your study time and what to review. It will also help you decide how to prepare for assessments and which learning tools to utilize.

Turn to page 4 to learn more.
